### 👤 PROFILE

I am a motivated IT professional with expertise in JavaScript, Python, Java, R, and the MERN stack. I develop dynamic web applications and conduct data analysis using SQL and machine learning. My strong organizational skills and leadership abilities make me a valuable team member. I am eager to collaborate on real-world challenges and craft innovative solutions while advancing my skills and knowledge.

### 🎓 EDUCATION

#### B.IT. Hons. In Information Technology (Reading)

SLIIT University

3rd Year C.GPA - 2.92

#### G.C.E Advance Level

AK/ Muslim Central College

Physical Science Stream

### 💻 PROJECTS

#### ● MERN Stack Project - Semester

- Created 'Wedding Hall Manager' using the MERN stack to automate room booking, staff management, receipt generation, and customer records. Features a user-friendly React.js | Node.js | Express.js | MongoDB

#### ● Income Predictor

- Predict income from the Adult Income dataset via machine learning. Use Jupyter Notebook for data preprocessing, feature selection, model evaluation, and deployment.

#### ● Movie App - React JS

- Created an interactive movie web application with React JS, incorporating real-time data retrieval, engaging UI elements, and smooth navigation to elevate user interaction.

#### ● Wild Sri Lanka - Semester Project

- I created two website pages using a balanced mix of HTML (15%) | CSS (25%) | JavaScript (30%) | MySQL (20%) | PHP (10%).

### 🔬 TECHNICAL SKILLS

- C | PHP | Java | C++ | HTML | CSS | MySQL | Python | JavaScript | R | Kotlin | MongoDB | Express JS | React JS | Node JS Stack
- Visual Studio | Eclipse | Git | GitHub | XAMPP | DMS | Replit | R Studio | IntelliJ | PyCharm | Power BI | Jupyter notebook

### 🎯 SOFT SKILLS

- Problem Solving | Teamwork | Software Development | Product Demonstration | Agile Development | Willingness to Accept Challenges | Self-Learning Ability

### 🏆 CERTIFICATES

Project Development Using JAVA for Beginners - 2023 - Udemy

Python Complete Course For Python Beginners

Build 20 JavaScript Projects in 20 Day with HTML, CSS & JS - Udemy

Git, GitHub & Markdown Crash Course: Learn Git, GitHub & MD

Python for Data Science, AI & Development - Coursera

PHP Tutorial Beginner to Advanced - Udemy

JavaScript Mastery From Basics to Advanced

The Complete MySQL Bootcamp: Go from Beginner to Expert
